

Call For Digital Residencies

Deadline: 31st May 2018

for FAVORITEN SPACE LAB, the digital venue of the festival of Independent Performing Arts NRW

DIGITAL RESIDENCIES

This Year FAVORITEN Festival, the festival of Independent Performing Arts NRW, takes a look from its NRW-theatre cosmos to the Outer Space of the digital space. Supported by the programme „Digitale Performance“ of NRW Culture Secretary, we will announce 8 residencies in digital space between June and September 2018 and invite professional artists of all disciplines to create a new digital performing art.

Every four-week residency is rewarded with **500 Euro** for the realization of new artistic work in the digital space. The workplace can be freely selected. The call is particularly addressed to artists who work with digital technologies and narratives or who want to expand their current approach to digital art. Collectives as well as individuals can apply. The selection is made by our guest curator **Jeanne Charlotte Vogt** (u.a. Director of the NODE Forum for Digital Art) together with Julia Kretschmer (Favoriten Team u.a. curator of What A B).

How can we think the relationship between digital and performance, is the open question we ask in the Outer Space. From a short snapshot-appearance which has already disappeared in the moment of reproduction to a live digital performance which is regulated by an algorithm, an artistic work which exclusively collects all their information on facebook to oppose them against their authors.

The results can range from browser-based projects, video works to digital presentation forms of performance concepts or research projects and the webpage offers access to them for the entire festival period. We are looking forward to your concepts, ideas, work samples!

Submit your project proposal in the form of: project sketches of the proposition (max. 1 page) and conclusive portfolio (work sketches, concepts, videos, sound files, game formats, etc.)
– via wetransfer or a linking including a short curriculum.

Call online: 3rd May. | Deadline: 31st May

Start 18th June - Launch 1 = 4 works on 16th July
Start 16th June. - Launch 2 = 4 works on 13th August
